

QUALITY POLICY

The purpose of the Quality Management System is to ensure that the products and services provided to the company customers consistently meet or exceed their expectations. The company operates a system that regularly evaluates its processes and customers' needs, and has set quantifiable goals with plans in place that they are improved year on year.

It is the policy of **Systems Power Ltd** to maintain, on a continual basis, an effectively managed Quality Assurance programme. This will assure customers that the products supplied conform to the laid down procedures or disciplines of the company, and will ensure that the customer's needs and expectations are met or exceeded.

The management of **Systems Power Ltd** is firmly committed to the documented procedures and control systems of the company, and the total participation of all personnel is mandatory.

The *Quality/Project Manager* is entrusted with the authority and responsibility for the control of the Quality Management System.

The Company policy is to train its personnel effectively and adequately in quality control procedures as defined in ISO9001:2000 standard.

This policy of Quality Assurance is in place to ensure that the overall organisational goals of the company are met. The goals of this company are to ensure that the best possible product is supplied to the company's valued clients, and that the company is able to meet their needs and requirements as effectively and efficiently as possible.
